

Please do not allow Sinclair Broadcasting Corporation, which is using our (the public's) airwaves, to air a highly partisan political attack on the eve of the election. It is patently obvious that Sinclair is using public resources in a bid to influence the vote. The corporation should either have its license revoked, or be compelled to declare itself a political action committee. This is truly outrageous and way out of the bounds of any notion of fairness. Nor can it be considered equivalent to a pay-per-view screening of Michael Moore's "Fahrenheit 9/11," as some have suggested; there is big difference between paying money to choose to watch a documentary, and having a documentary foisted onto viewers via a public-owned broadcast venue. Please, do not allow our upcoming election to bear this taint. Please stop Sinclair Broadcasting. You hold a public trust; please keep it. Thank you.
